Trees arrive in  
the Fall for  
optimal planting.

Planting Forward™

# WOODLANDS NATIVE TREE MARKETPLACE™

For this generation and the next.

The **Woodlands Native Tree Marketplace™**, a complement to our Planting Forward™ initiative, offers year-round access to high-quality native trees at nursery-direct prices. Inspired by the 2020 derecho and the urgent need to address climate change, Woodlands empowers Linn County residents to rebuild a resilient tree canopy.

## WHY THE NATIVE TREE MARKETPLACE?

### Nursery-Direct Prices

Trees are available to Linn County residents at our wholesale cost, with no quantity limits! Monarch Research has purchased **22,000 trees** from **25 native species** for landowners to select from. Cost for each 3-gallon tree is \$25.

### Grown with Care from the Best

Our trees come from the **largest native nursery** in the Midwest and the nation, ensuring top quality.

### 3-Gallon Trees: The Smart Choice

- ❑ **Better Survival Rate:** Minimal transplant shock.
- ❑ **Cost Effective:** Lower price compared to larger trees.
- ❑ **Rapid Growth:** Begins growing immediately, often surpassing 15-gallon trees in size within 7 years.
- ❑ **RPM Rooting System\*:** Recognized as the gold standard for healthy root development.

### Fall Planting Advantage

- ❑ **Optimal Survival:** Fall (October) planting ensures higher survival rates and reduced watering needs in the first year.

\*For details on RPM Rooting Systems visit [www.fknursery.com](http://www.fknursery.com).

## HOW IT WORKS: ONLY 6 EASY STEPS!

- 1 **Visit the Native Tree Marketplace** at [monarchresearch.org](http://monarchresearch.org) or scan the QR code for faster ordering.
- 2 **Select your trees** from a list of 25 native species.
- 3 **Complete the online order form** by Sept. 10th.
- 4 Confirmation **information will be sent to you** via the mail provided.
- 5 **Pickup** or delivery (for a fee) dates will be communicated by October 1st.
- 6 **Plant** and enjoy your tree(s)!

## WHY IT MATTERS

The 2020 derecho devastated our community. In response, we've planted 100,000 native trees, restoring vital habitats on public and private lands throughout Linn County. However, much work remains. **We're committed to planting another 100,000 trees in the next five years.**

With 22,000 trees ready for planting this October, **you can play a crucial role** in reforesting Linn County and ensuring a healthier future for our community.
